Find the list of animals in the Japanese lunar zodiac by using this English list as a guide. **BONUS POINTS** if you can draw the animal itself circling it's appropriate word.
See an example shown below! ~<3

Note: The Japanese translation may be written horizontal, vertical, diagonal, and in reverse! Be vigilent~. If you do not know the Japanese words yet, this is a great opportunity to learn a new word from your favourite dictonary!

dragon

sheep

ANOTHER NOTE:

It does not have to be drawn like this. Just use your own vibes ~<3

rabbit
